COLLECTION **ATMOSPHERICS**

À travers le globe, la lumière évolue avec le temps.

De la lumière douce et rassurante de la bougie, à la LED crue du réfrigérateur, les siècles ont glissé.

Sommes-nous au delta du grand jour, même la nuit ?

Recherchons-nous la lumière de midi à minuit ?

De nuit, les « **atmospherics** » glissant sur la profondeur du soir, jouent la nuit douce au lever de lune, pour mieux tisser les liens aux portes de l'intime....

De jour, les « **atmospherics** » se posent en gardien du temple de la nuit.

ATMOSPHERICS COLLECTION

Across the globe, light evolves over time.

From the soft and reassuring light of the candle to the raw LED brightness of the refrigerator light, centuries have passed.

Are we at the delta of the big day, even at night ?

Are we looking for light from midday to midnight ?

At night the « **atmospherics** » slips into the depths of the evening, plays the soft night at moonrise, to better weave the links at the gates of the intimate.

By day, the « **atmospherics** » acts as guardian of the night-temple.
